Braille (pronounced in French: [bʁaj]) is a raised dot tactile writing system for use by people who are blind or severely visually impaired. The system bears the name of its inventor, the Frenchman Louis Braille (1809-1852) who had lost his sight following an accident.

School for the blind in Udaipur

October 31, 2015

URVASHI and ANANDA met Mr HARISH SHARMA, Director of Government Pragya Chakshu Senior Secondary Blind School in Chipa Colony Malatalai Udaipur... for the 2nd time.

They have discussed with Mr VIJAY PANDHYA blind Professor of Hindi, from Sanskrit which made us part of their monthly needs.

Then they shared moments of intense emotions with RAJU, SACHIN and LOUKESH when they visited the establishment. Future visits are planned.

The children were happy at this meeting and **URVASHI and ANANDA** promised to review them very quickly.

November 15, 2015

Meeting of the student Sachin in her family. Discovery of the teaching of Braille and the tablet for calculations. Sachin has been a pleasure to explain to us his work tools.

October 24, 2015

Second visit with the meeting of Sachin

16 October 2015

Visit the institution.

Above all, they need educational support and school equipment adapted to the blind. Whether books, keyboards for calculations or software adapted to their disabilities.

December 17, 2015

Visit URVASHI and ANANDA and meet with the new staff of the school with Ms Aabha Sharma to get information needs.
