On the 6th of July 2019, we met Mr Saddam Kalambdar and Mr Gaurav from the Osian School Teachex Spoken English.

They have plus or less than 30 students from 13 to 20 years old for English coaching. Students come to improve their diction.

The help we will give them lies solely in our field experience and guide them in their future choices. And to correct the gaps of language that they can lack practice.

We went back several times during the year to continue to improve their English using different learning techniques.
